WEBSITE SALES AUDIT · PREPARED FOR OAKLINE HOME

Why the website isn't selling, and how we'll fix it.

This is a demo report for a fictional furniture store. Every problem is shown with a screenshot and exactly where to find it.

PREPARED FOR
Oakline Home (fictional demo store)

AUDIT DATE
13 October 2026

PREPARED BY
WebXLR8 · webxlr8.com

IN ONE PAGE

4 problems are stopping sales on your website

We opened every page on a laptop and a phone. The first 4 problems stop people from buying today.

4
urgent problems that stop people from buying

0
broken or empty pages and features

0
smaller design and text problems

#	PROBLEM	WHERE	LEVEL
1	Customers cannot pay online	Checkout page	URGENT
2	Product pages show a clothing shop's policies	Every product page	URGENT
3	Fake "people viewing" and "only 10 left"	Every product page, near the price	URGENT
4	Chat button covers "Add to Cart" on phones	Product page, mobile	URGENT

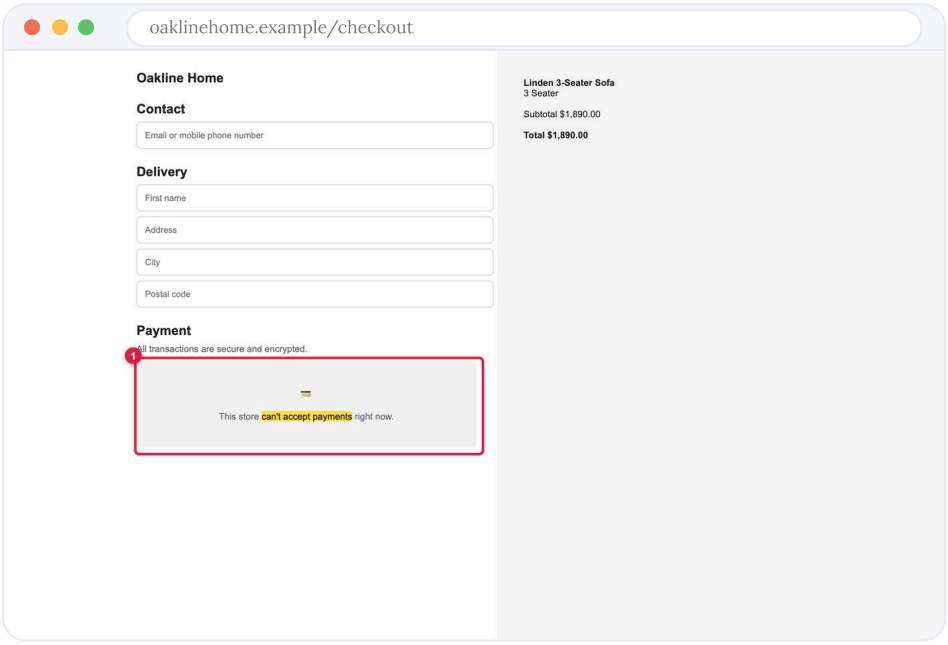

01 — CHECKOUT URGENT

Customers cannot pay online

When a customer tries to buy, the checkout page says **"This store can't accept payments right now."** The order cannot be completed.

WHERE TO SEE IT

Open any product → click **Add to Cart** → click **Checkout** → scroll down to **Payment**
Example: **oaklinehome.example/products/linden-sofa**

The payment block offers no payment method.

WHY IT COSTS SALES

Every customer who tries to buy online leaves without paying. Money spent on ads is wasted.

WHAT WE'LL DO

Set up online payments, including instalments, and complete the store's official policy pages.

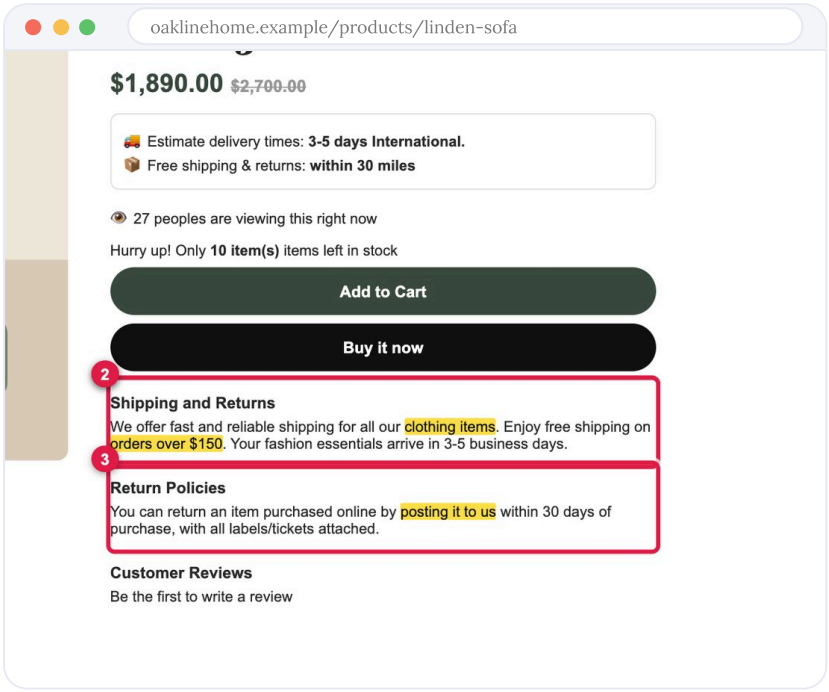

02 — PRODUCT PAGES URGENT

Product pages show a clothing shop's policies

Every product page says the store sells "**clothing items**" and accepts **returns within 30 days**. The store sells made-to-order furniture with no returns.

WHERE TO SEE IT

Open any product → scroll below **Add to Cart** → read **Shipping and Returns** and **Return Policies**

The yellow words are copied from the theme's demo store.

THE WEBSITE SAYS	THE TRUTH
"clothing items... fashion essentials"	Handmade furniture
"3-5 business days"	4–6 weeks to make
"return... within 30 days"	Made to order: no returns

WHY IT COSTS SALES

Buyers see clothing text on a $1,890 sofa and stop trusting the store.

WHAT WE'LL DO

Replace the text on every product page with the real delivery, warranty and return terms.

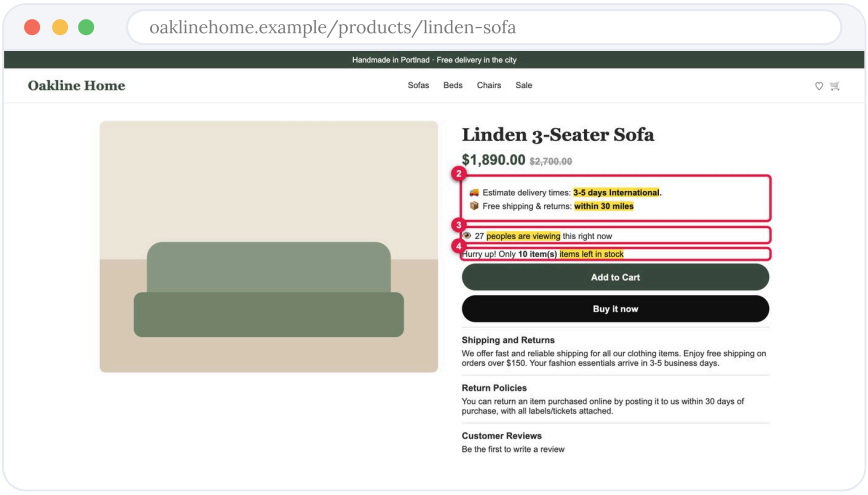

03 — TRUST URGENT

Fake "people viewing" and "only 10 left"

A random visitor count and a fake stock warning appear on furniture that is made to order. The delivery box also promises returns.

WHERE TO SEE IT

Open any product and look under the price and above **Add to Cart**. Refresh: the number changes.

Problem: Shoppers notice fake numbers and stop trusting the brand.

We'll fix: Remove both and show real reasons to buy: warranty, crafting time, local delivery.

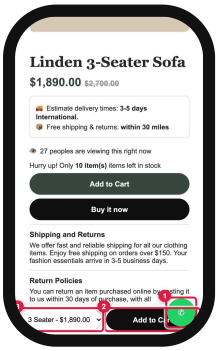

04 — MOBILE URGENT

Chat button covers "Add to Cart" on phones

On phones, the green chat button sits on top of the Add to Cart button and the price box is cut off.

WHERE TO SEE IT

On a phone, open any product and scroll down until the bottom bar appears.

1. Chat button on top of Add to Cart. 2. Button text cut. 3. Price box cut off.

Problem: Customers tap chat by mistake instead of buying.

We'll fix: Move the chat button and fix the bottom bar.

AFTER THE FIXES

What else will bring more sales

These are missing today. Each one is common on furniture sites that sell well.

Customer reviews Today: 0 reviews	Bring Google reviews onto the website, with stars on every product.
Instalments Today: not shown	"Pay monthly from $X" under every price.
Sizes Today: no measurements	A clear size table on every product.
Google search Today: generic page titles	Proper titles and descriptions for every page.

OUR PLAN

A selling website in 30 days

Week 1 stops the loss. Weeks 2–4 bring more sales.

WEEK 1

Fix urgent problems

- Online payments working
- Correct product text
- Remove fake numbers
- Fix mobile buy bar

WEEK 2

Build trust

- Reviews on site
- Instalments shown
- Analytics set up

WEEK 3

Better pages

- Real photos
- Size tables
- Faster pages

WEEK 4

Grow

- Abandoned-cart follow-up
- Local ads
- Track and improve

Start with Week 1

The urgent problems can be fixed in the first week, so customers can buy again straight away.

contact@webxlr8.com

How we checked: every page on laptop and mobile, plus an automatic scan of all product pages. Checkout was tested up to the payment step without placing an order.

WHY WEBXLR8

One team to fix it, build it and keep it running

WebXLR8 is a technology partner based in Kochi. We design, build and run websites and online stores, and we stay on after launch.

100+
